# ABHIJEET ANAND

https://abhijeet-anand.netlify.app/
abhijeetad500@gmail.com | +91 8578855889 | LinkedIn | GitHub

## EDUCATION

**INSTITUTE OF TECHNICAL EDUCATION RESEARCH**
Bachelor of Technology
Computer Science Engineering
Exp. May 2024 | Odisha, India
CGPA: 9.65 / 10.0

**M.G.M HIGHER SECONDARY SCHOOL**
Secondary School Certificate
PCM with Informatics Practices
Grad. May 2020 | Jharkhand, India

## TECHNICAL SKILLS

- Java
- Angular
- Rest APIs
- MySQL
- HTML
- CSS
- SCSS
- Bootstrap
- Git
- JavaScript
- TypeScript
- Data Structures and Algorithms

## SOFTWARE EXPOSED

- GitHub
- Git Bash
- MySQL
- Postman
- PostgreSQL
- Swagger
- Trello
- Eclipse
- Visual Studio Code
- Adobe Photoshop
- Adobe Lightroom
- Adobe Illustrator
- VSDC Video Editor

## LANGUAGES KNOWN

- English | Conversational
- Hindi | Native

## ADDITIONAL

**VOLUNTEER EXPERIENCE**

Hack Club ITER | Technical Lead and Web developer | Sept 2021 – Jun 2022

- Developing a website for a Hackathon.
- Conducting workshops in my field of expertise.
- Helping organizing the Hackathon.

Coding Wizard Club ITER
Project Lead | Aug 2021 – Oct 2021

- Assigning projects to the team and monitoring the development.
- Preparing entrance test for the new club members and evaluating them.

- 1700+ GitHub commits
- 500+ Problem Solving in Java
- 5 stars in HackerRank

## EXPERIENCE

**ACCORDIFY WEBSOL** | Angular Developer Intern
Aug 2021 – Nov 2021 | Remote

- Designed an ecommerce desktop and mobile website for the Hoarding company which includes practical user interface (UI) elements via research culminating in client knowledge transfer.
- A multiselect search box has been designed to implement algorithms like search and sort in order to provide lazy loading.
- Provided assistance to the team in integrating the RestAPI for communication with client-side application (ANGULAR)

## PROJECT

**ELECTRICITY SAVIOUR** | Team Project
Angular | PrimeNG | NodeJS | MongoDB | Postman | Express | PostgreSQL

- Calculate the estimated unit of power consumed and lets you know the possibilities of shutting down to save energy.
- Calculating the projected cost, billing records, tracking, and analyzing power consumption, and even paying your monthly bill.

**HEALHUB** | Team Project
HTML | CSS | Bootstrap | JavaScript | Postman

- Helps you find perfect Health Plans with our Tools, Blogs Stats, and provides valuable information about your health
- Aim to serve all people through exemplary health care, education, research, and community outreach

**PORTFOLIO** | Individual Project
HTML | CSS | Bootstrap | JavaScript

- The aim of this project is to showcase my front-end development and designing skills in the best way possible and to let others know who I am and what I do.

## ACHIEVEMENTS

| Year | Rank | Event |
|------|------|-------|
| 2022 | 3rd | International | TOPCODER Skill Builder Competition on HTML, CSS, & JS |
| 2021 | 5th | International | TOPCODER Skill Builder Competition on Angular |
| 2021 | International | Hacktoberfest Badge (Open Source) by Digital Ocean |
| 2021 | Apprenticeship | Industrial Program on Web Development by Raise Digital |
| 2021 | 1st | Intra-college | Summer Hacks'21 (Web Development Hackathon) |
| 2021 | 3rd | Intra-college | Codathon (Web Development Challenge) |
| 2015 | 7th | State | International Mathematics Olympiad (IMO) |

## CERTIFICATIONS

- Java Programming Master Class Completion Certificate by Udemy
- Certificate of Completion in Web Development from IIT KANPUR
- Angular certification by HackerRank and by LinkedIn Learning
- Java certification by HackerRank and by LinkedIn Learning
- Problem Solving certification by HackerRank
- JavaScript certification by HackerRank
- CSS certification by HackerRank
- SQL certification by HackerRank
- GIT Essential by LinkedIn Learning
- Illustrator Essential Training by LinkedIn Learning
